## A NOTE ON CUPCAKE DESIGN

Cupcakes will be frosted, topped, and decorated according to a standard aesthetic that I've designed to look best for standard pricing. If you have any preferences for cupcake liners, color or design of sprinkles, or the color or design of swirled buttercream, please don't hesitate to ask. Most of these changes can be made with no additional charges. If you'd like to add toppers, gold leaf, berries, florals, etc., these are all available at additional cost.

## A NOTE ON DIETS/ GLUTEN FREE REQUESTS

**Vegan Requests:** Most flavor options in cake and dessert bar listings can be made with vegan-friendly recipes. Some vegan ingredients are more costly and might increase overall price per dozen. Please feel free to inquire!

**Gluten Free Requests:** Please note that I do not bake out of a gluten free kitchen. Every utensil, appliance, and work surface is cleaned between recipes, but desserts made with wheat flour share this same space daily. Those with gluten sensitivities and allergies should be aware of this risk for cross-contamination and instead purchase bakery from a gluten-free bakery. If you're looking for gluten-free desserts based on preference rather than allergies, most flavor options in the cake and dessert bar listings can be made with gluten-free recipes. Some gluten-free ingredients are more costly and might increase overall price per dozen. French macarons and chocolate dipped strawberries are naturally gluten free. Please feel free to inquire!
